## DEMONSTRATIONS

The maximum distance I travel for club demonstrations is up to 50 minutes and on weekdays only. However, always inquire if you are a little further as I might be in the area.

Demonstrations are priced at £85 + £60p per mile.  
Zoom and Facebook Live Demonstrations are available.

## 2 HOUR WORKSHOPS

2-hour workshops are a great taster to a subject and work really well at sugarcraft clubs in the evening instead of a demonstration as they are interactive, putting into practice immediately the skills they have learnt. This also helps to build confidence in a craft.

In two hours I could teach a single flower, a face or this cute sleeping baby. Christmas themes also available.

2 Hour workshops for Sugarcraft clubs, Exhibitions and Cake Schools are priced at £175 + 60p per mile.

Subject to change depending on number of students.

# FULL DAY CLASSES

## About the Classes:

The full-day class subject I would recommend is based on the number of students you would like to have in a class as well as your duration.

The more skilled and advanced the longer the class will go on, and therefore I would recommend fewer students

**Flower classes** will usually include 2-3 flowers - Large flower a filler and a trailing flower

## Modelling Classes:

Ballerina  
Child playing in the rain  
Beach Babe  
Grandma May  
Family wedding cake topper - this will be over two days.

Most of my modelling classes come with PDF templates for the students to follow as they go along.

## Price:

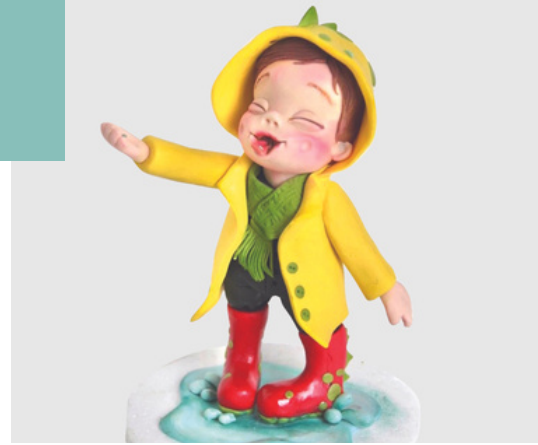

Full-Day Classes are approximately 7 hours long £500 for up to 10 students and an additional £40 per head thereafter.

Travel 60p per mile.  
Accommodation may be needed if the location is more than 2 hours from Tasteful Cakes Address.

## Equipment & Materials

Equipment and material list can be provided  
However, if you prefer I can bring equipment for up to 10 students for a small fee

Materials can also be supplied and will be charged per head depending on the the chosen course should you require this option.

# SHOP

I'm also happy to bring along a shop stocking my NEW Skin Tones Paste Food Colour that creates multiple skin tones for sugar models from one pot. The Rainbow Double-Ended Craft Tools I Collaborated on with FMM. A rubber tip Tool, Water Pens and Trex pots. As well as any Handouts and templates that may go with the course.

## Thank You

For your time, I really hope we can work together in the future. Rest assured I understand that the teacher you choose is representative of your business or club I'll be professional, informative and fun.

All of the students will go home with a smile and a piece of sugar art they are proud of.

*Christina x*
